

All our crops are organically produced, without the use of pesticides and artificial fertilizers. We track our goods by classifying them into three groups:

1. Certified organic crops marked with the /O suffix in LOTs.
2. Crops from newly certified fields in the conversion process, marked with the /Kx suffix in LOTs.
3. Crops we decided to sell without organic certificates, due to precautionary declassification or contamination, marked with the /NO suffix in LOTs.
